## Residential Fencing

## Front & Back Yard Fence Heights

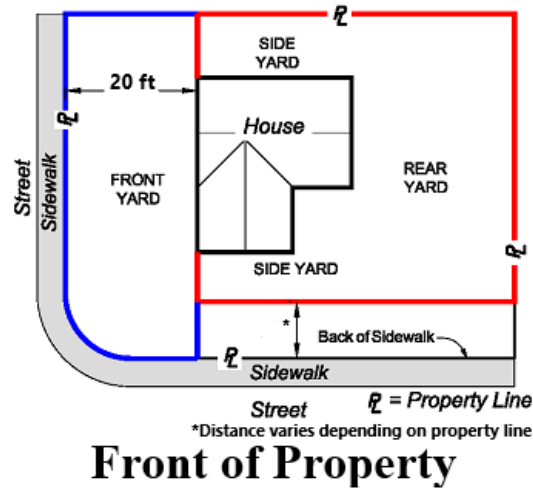

### Standard Residence

**■** = Front Yard Fencing: The front yard fence is limited to 4 feet and may extend to the back of the sidewalk. (0 Setback)

**■** = Rear & Side Yard Fencing: The rear and side yard fencing is limited to 7 feet.

### Locating Your Property Line

-Verification of property lines for the location of fencing is the responsibility of the property owner.

-The front of a house is not always the front of a property. The narrowest portion of the lot is considered the front yard for setback purposes.

### Street Side - Side Yards

-Varies depending on location of property line, verification of property line is property owner's responsibility.

## Building Permits

- Building permits are required for concrete block or brick wall fences over 6 feet high.
- Building permits are not required for all other fence types other than those noted above not over 7 feet high.
